

# Zeomineral *Refresh*

Drying and deodorizing talcum powder made of natural zeolite  
In Natural and Herbal versions

Drying and deodorizing talcum powder made of natural zeolite.

Zeolite is an extremely effective absorbent, so it naturally reduces perspiration.  
Does not cause allergies.

Herbal: A natural product enriched with chamomile, sage and peppermint. Chamomile and sage are anti-inflammatory, antimicrobial herbs, while peppermint gives the skin a cooling feeling.

It reduces perspiration during summer heat or sports, eliminates unpleasant body odour.

Sprayed into shoes helps prevent fungal growth.

Packaging: 160g
